

## Sensormatic Hawaii Qualifications Statement

**It is Sensormatic Hawaii's mission to meet the long term physical security requirements of our clients by emphasizing innovative solutions, utilizing next generation technologies and providing excellent service.**

## **SHI Qualifications**

For more than 30 years, Sensormatic Hawaii (SHI) has engineered, deployed and integrated security systems for a host of clients with the most demanding requirements. SHI currently provides large-scale systems integration services for a broad spectrum of commercial, industrial and military clients in Hawaii and throughout the world.

Sensormatic Hawaii provides comprehensive security solutions from policy to technology and ongoing operational support. As a hybrid international/local Hawaii company, Sensormatic Hawaii offers the skill of a global company and the support of a local partner.

Sensormatic Hawaii is expert in providing cutting edge visual monitoring systems integration in the most challenging environments. SHI provides best of breed video surveillance components, IP wireless mesh networking components and software management systems in the design and implementation of perimeter, critical area and facility security management system.

The SHI engineering team provides detailed system design to include system reliability measurements, electrical infrastructure plans, point to point as well as detailed component wiring diagrams and system operation requirements. Engineering design and integration processes include aesthetic concerns to the client and power systems designed to ensure reliability for the installed networks.

## **Sensormatic Hawaii Staff and Company Qualification Highlights**

- **SHI Organizational Credentials** – SHI currently employs 34 full time team members including: 27 technical and engineering employees, 9 industry certified computer engineers, 7 team members dedicated to service and support. SHI is a licensed C13 high voltage electrical contractor.
- **ESS System Certifications (Partial)** – American Dynamics, Pelco, Loronix, Smartsight, NICE Video Systems, Bosch CCTV, Software House, Wave Wireless, AMAG, MDI, Object Video.
- **Computer Network Certifications (Partial)** – CCDP, CCNP, CCNA, MCSA, MCP, A+, Network +, Certified Wireless Network Administrator,
- **RF Certifications (Partial)** – CWNA, MOS 35E Radio and Cryptographic Electronics Technician, Presidential Radio Technician.
- **Employment History (Partial)** – US Army, US Navy, Security Solutions, ADI, USMC, General Dynamics, Wave Wireless, Security Services and Technologies, GTE Government Systems, NATO.
- **Client List (Partial)** – U.S. Army, U.S. Marine Corp, United States Air Force, Hawaiian Electric Company, Queen’s Medical Center, Honolulu Police Department, Hawaii Tourism Authority, Hawaii State Supreme Court, Macy’s, Sears, Waikaloa Land Company, Hilton, Marriot.
